Environmentalism is now an essential part of modern life and schools and students are playing a major part. The Cumbrian Eco Forum Awards for Schools is a chance for schools, teachers and students to be rewarded for environmental activities, big and small.

Winners will receive their prizes at the Schools Environmental Awards Day. Hosted by Sedbergh School. This will be a day of celebration, networking and idea sharing for all schools and local environmental organizations.

Applications are open to both primary and secondary schools in Cumbria.

There are four award categories with prizes up to £1000.
